TUNGSTEN SMART-HEAT® FREESTANDING

KEY FEATURES

- **Modular Construction:** Built-in wheels enable flexible placement in various outdoor settings.
- **Award Winning Design:** Boasts an award-winning matte black finish and unique design, adding a touch of sophistication to any outdoor space.
- **Superior Radiant Heating Efficiency:** Utilizes high-intensity ceramic burners and directional radiant heat technology, making it up to 3 times more efficient than traditional freestanding heaters by focusing warmth exactly where it's needed.
- **High Heating Capacity:** Delivers 40 MJ of heating power, effectively warming outdoor areas up to 20 m².
